16h55-17h20: Alberto Isidori - Steady-state behaviors and output regulation of nonlinear systems - PDF

17h20-17h45: Yutaka Yamamoto - Path Integrals, Bezoutians and Stability - PDF

18h10: Reception in the City Hall
20h00: Official banquet

Day 2: September 17, 2009

09h00-09h25: Paolo Rapisarda - Exact identification of lossless systems - PDF
09h25-09h50: Arjan J. van der Schaft - Conservation laws and interconnection of systems - PDF
09h50-10h15: Bart De Moor - Finding roots of multivariate polynomials is an eigenvalue problem

10h15-10h30: coffee break

10h30-11h10: Roger W. Brockett - Smooth Variational Problems need not Result in Smooth... - PDF
11h10-11h35: Jan W. Polderman - Time-domain description of behaviors over finite fields - PDF
11h35-12h00: Michel Gevers - Connecting informative experiments, the information matrix and the... - PDF

12h00-13h30: lunch

13h30-13h55: Sanjoy K. Mitter - Interactive statistical mechanics and nonlinear estimation - PDF
13h55-14h20: Johan Schoukens, G. Vandersteen, K. Barbé, R. Pintelon - Nonparametric... - PDF
14h20-14h45: Maria Elena Valcher - Reachability properties of discrete-time positive switched... - PDF
14h45-15h10: Manfred Deistler - Generalized linear dynamic factor models – An approach via... - PDF

15h10-15h30: coffee break

15h30-15h55: Ivan Markovsky - Data-driven simulation and control - PDF
15h55-16h20: Harry L. Trentelman - Optimal Robust Stabilization in Behavioral Framework - PDF
16h20-16h40: Closing remarks
