

Raising young people's awareness for built environment is the goal of *bink Initiative Baukulturvermittlung für junge Menschen*. At the international architecture exhibition La Biennale di Venezia this topic was presented as an essential factor in developing perception, teamwork and responsibility. The objective was to identify and reflect ones own and others needs and desires concerning spacet and to work together towards finding solutions. The film as well as the parallel published small booklet *My fundamentals* document the onsite work and the various contributions that have arisen.

Participants from

SLOVENIA:  
Center Arhitekture Slovenije,  
Waldorfska šola Ljubljana
