STWST48x3 – 48 Hours MIND LESS

MINDLESS48x3

Under the slogan MIND LESS, STWST48x3, the third edition of STWST48, offers a 48-hour showcase-art-extravanganza of the expanding kind. Mindless information, open states of mind, an infolab in opposite to new media, quasi-coordinates of extended contexts, funky fun-gis, digital physics and a Meltdown Totale: STWST48x3 MIND LESS is addressing new art contexts that have been developed in and around the Stadtwerkstatt Linz in recent years. Watch out: MIND LESS Stadtwerkstatt is also in 2017 under the directive of New Art Contexts and autonomous structures.

MYCELIUM NETWORK SOCIETY

STWST Residencies

Mycelium Network Society, a brand new network initiative situated in a post-internet mudland, diverts the pursuit of magic mushroom, from a state of hyper-hallucination to collective fungal consciousness. MNC investigates the fungi culture, its network capacity to communicate and process information. MNC shows works from Artists of der Summer-Residencies on survey vessel Eleonore.

THE MYCOS EXPERIENCE | Presentation

If the mycelium is a communication network, certain mushrooms must be the data centers... In the mycos experience Servando Barreiro is involved with Psilocybin / Psilocyn. +++++FOYER / 48 HOURS CONTINUOUS

BYNDELLE HYBRIDA | Installation

Byndelle Hybrida focuses on the search of a hybrid created out of the combination of metals and mycelium. The project is inspired by papers, which involve concepts of nature, technique and cyborgs. A project by Azucena Sanchez. +++++FOYER / 48 HOURS CONTINUOUS

THE BOAT | Installation

This project demonstrates the potential of mycelium as a building material. Built with this new and sustainable material Callum Caplan is presenting a small rowing boat out of mycelium and wood. +++++FOYER / 48 HOURS CONTINUOUS

INFOLAB

The Infolab is an open laboratory format, which STWST has been operating for several years. The Main Question in the Infolab is: What is New Media and what is information? The aim is to look at the concept of information from an artistic perspective, close to scientific knowledge.

MYCELIUM INFOLAB | Presentation

For several years, Stadtwerkstatt has been working with fungi and mycelium - as part of the Infolab, where other types of communication and information processing are concerned. Besides the MNS-Residencies Mycelium Infolab will be presented. Mycelium Infolab by taro, Shu Lea

Cheang und Franz Xaver. +++++KITCHEN + FOYER / 48 HOURS CONTINUOUS

INFOLAB VIDEOCLUB: DIGITAL PHYSICS | Streaming-Club Infolab is proud to present: »op kino« - its not our real world. 38 films, non stop in 2x24 hours. In this cinema you can have a drink and watch 24 hours nonstop documentations about information technology, quantum theory and digital physics. Let's break the natural laws. A project by Franz Xaver. +++++SERVUS CLUBBRAUM / 48 HOURS CONTINUOUS

FUNKFEUER.DE | Presentation

The Infolab of the Stadtwerkstatt is continuously working on an autonomous information network. The current development status of the project Funkfeuer.de will be presented. Let's secure autonomous information. A project by Franz Xaver. +++++SERVUS CLUBBRAUM / 48 HOURS CONTINUOUS

QUASIKUNST

Quasikunst is systemic-performative research, since several years settled in the »New Art Contexts« of Stadtwerkstatt. It loosely refers to existing concepts such as quasi-objects and their extensive contexts. Quasikunst this year discusses non-human actors, as entities, systemic subjects, quasi-presences of nature and technology. It's all about the whole.

ICEBERG / THE ENTITY - 48 HOURS MELTDOWN | Installation

An ice block as an entity is performing its most obvious material aspects - as a 48 hours meltdown. A project by Tanja Brandmayr. +++++WERKSTATT / Fr + Sa, 16 - 01 h

ENTER THE NET - GET A PASSPORT FOR THE COLD LAND | Textinstallation

Whenever we do not know, whenever we feel alien, whenever we can not help it, we do it, we »go to the net«. Lisa Spalt installs a short audio text beginning in correspondence to cold/meltdown. +++++WERKSTATT / Fr + Sa, 16 - 01 h

THE ROBOT IS PRESENT | Installation/Performance

The group H.A.U.S. inverts the performance 'The Artist is Present' by Marina Abramović. A humanoid robot is present. A second work shows auto-

mous, architectural robots, which act as self-created adaptive space sculptures. H.A.U.S. deal with questions about presence, the culturalization of robotics, and with artificial embodied agents. +++++WERKSTATT / Fr + Sa, 16 - 01 h

OPEN LOCATIONS

WILD_CHIVE_LAB | Kunstlabor I

An old fire brigade trailer serves as a mobile art laboratory, which is constantly transformed. A hunger and art hybrid with cold ayran and root noise. A project by Christine Pavlic and Christoph Ebner. +++++MAINDECK / Fr + Sa, 14-18 h

LOCATION ID: HOME | Cooking/Feeding Performance

Location id: HoME is a speculative cooking/feeding performance set in urban/rural farming communities in year 2030. Pipe into a liquid future. Locate yourself with home-cooking. A Project by Shu Lea Cheang. +++++AROUND STWST / Fr + Sa, 18-22 h

CINE TRAKTORI | Mobile Cinema

The Traktori collective converted the trunk assembly of an old Mercedes truck into a cinema with 13 exclusive seats. The rolling cinema is showing a selection of films and videos from the almost 40-year STWST-archive. +++++MAINDECK / Fr + Sa, 18-22 h

MEME | Fusion Point River Danube

The Meme project will be running the Donaulands from August to STWST48x3. MEME travels from Athens to Linz and, as an open space, offers cool drinks and hot facts directly from the borders of Europe. MEME is land, water, urbanity, gallery, workshop, fusion point. A project by Skywalker eV. +++++DECKDOCK / 48 HOURS CONTINUOUS

MIND LESS

STWST48X3 CLUB NIGHTS

Mechanics squeak and rattle the rhythm of yesterday in the halls of tomorrow. Man-Machine-Sound in STWST-Club, curated by Felix Vierlinger. Mind more Nightlife. Mindless Patrik Huber is your experienced man-machine-host through the night. +++++STWST CLUB / Fr + Sa, from 23 h
