Paper ID and title : (URAI11-167) Mobile Manipulation: Bring Back the Cereal Box Video
Proceedings of the 2011 CogX Spring School
Decision : Acceptance as a video paper

Dear Colleague:

It is our great pleasure to inform you that the paper referenced above, for which you are listed as the corresponding author, has been accepted for publication in the proceedings of The 8th International Conference on Ubiquitous Robots and Ambient Intelligence (URAI 2011) to be held in Incheon, Korea, on November 23-26, 2011.

Attached please find reviewers' comments, and address them while preparing your final manuscript. In addition, please note that we have three types of papers, which have different page limits and presentation styles. (Regular Paper: 3-6 pages, Work-in-progress Paper: 2 pages, Video Paper: 1 page+ video file & video presentation)

The acceptance of your paper is made with the understanding that at least one of the authors will make a regular registration and attend the Conference to present the paper. In order for your paper to be included in the conference proceedings, please note that:

1. Your final manuscript with a file name of [URAIxxx.pdf] (xxx is your paper number) must be prepared using our latest conference template and VERIFIED to meet IEEE Xplore requirements.
2. Your final manuscript in PDF format and the abstract in plain text should be uploaded to conference website latest by September 30, 2011 after Advanced registration. For detailed information, please refer to the website at <http://www.kros.org/urai2011/02submission03.php>.

The Advanced Technical Program will be available at the website in early October. Please read the guidelines for presentation carefully.

Yours sincerely,

Program Committee

URAI 2011

This ia an interesting video paper which seems to be possibly further studied.	
Reviewer	2
An educational work. Adding descrption about the robot system in the video would be helpful.
