Preface

In this solicitation, we hope to have the opportunity to present new ideas and to stimulate a discussion on the topics of our workshops.

We appreciate the support of the NSA, DOE, and ONR for their continued support of our research activities. This support has enabled us to continue our research activities and to make significant contributions to the field.

The workshops are organized by the NSA, DOE, and ONR and are supported by the NSA, DOE, and ONR.

We would like to thank the organizers of the workshops for their support and for providing a forum for the exchange of ideas.

We hope that this volume will be a valuable resource for researchers in the field of computer science and that it will stimulate further research and collaboration.

Finally, we would like to express our gratitude to the contributors to this volume for their excellent work and for their contribution to the field of computer science.
In the context of the program of the workshop as well as our broader mission to foster a platform for discussion and exchange of ideas, we present the NODA 2016 Program Committee. We welcome you to join us in exploring the exciting ideas presented in this volume of proceedings and to engage with the contributors. NODA 2016 is a special occasion to celebrate the contributions of the researchers and engineers involved in the development of multimedia systems and applications. NODA 2016 also offers a platform to further explore the interactions between academia and industry. It provides an opportunity to promote the exchange of ideas and foster collaboration among researchers and practitioners. We hope you enjoy the conference and the wide range of presentations on the various topics of interest.

The Program Committee of NODA 2016 consists of:[...]

The following is a list of some of the speakers for the event:

- John Doe (University of California, USA)
- Jane Smith (University of Oxford, UK)
- Tim Brown (University of Melbourne, Australia)
- Ahmed Ali (University of Tokyo, Japan)
- Maria Garcia (University of Santiago, Chile)
- José Rodriguez (University of Sydney, Australia)
- Karina Martinez (University of Buenos Aires, Argentina)
- Manuel Garcia (University of Madrid, Spain)
- Luis Rodriguez (University of Barcelona, Spain)

We look forward to your participation in the conference and hope you find the presentations informative and engaging.
