The IEW facilitates access to and interactions with industry leaders through invited seminars, technical sessions, special interest groups (SIGs), discussion groups (DGs), and invited speakers. Participants meet in a relaxed, invigorating atmosphere and engage in discussions about the latest research and issues of interest within the EOS/ESD community.

Participating at the IEW is:

- An immersive, interactive experience with experts on technical advancements
- All-inclusive pricing – workshop, hotel, and meals
- Peer reviewed poster format for future full paper development
- Gaining valuable industry recognition and receive feedback
- Interactive and in-depth discussion groups

Scheduled poster sessions form the core of the technical program. These poster sessions are preceded by a brief introduction of each poster by the authors in a plenary "teaser" session. These teasers encourage the participants to select the posters of greatest interest. Meet and chat with the authors, while you expand your knowledge and network in the subsequent poster discussion session.

The discussion groups (DGs), held in the evenings, are a unique part of our interactive workshop. While each EOS/ESD topic discussion is facilitated by an expert on the subject, the
