Will Alsop's final project wins approval

Alsop, who died aged 70 following a short illness before his death in May – has been approved.

The project is set to open in spring 2020.

A bright red leisure box’. A thatched rooftop restaurant will sit on a biodiverse brown roof.

According to the practice, the 'striking patterns of the facade will hint at the amusements and leisure facilities inside'. The project includes a light monorail with 'jellybean'-style carriages, a helter-skelter, a piano staircase and a merry-go-round.

The project is set to open in spring 2020.
